

FOGLESS[®] 3SIXTY[™]
TECHNOLOGY

STANDARD
ANTI-FOG

HIGH PERFORMANCE FOGLESS[®] TECHNOLOGY

- Enhanced hydrophobic action resists lens fogging, providing workers clear vision in extreme conditions
- Bonded durable coating resists cleaning and wear
- Multiple styles available for use in varied work environments

FOGLESS[®] 3SIXTY[™]

Lenses fog for many reasons, all of which are related to ambient temperature and moisture in the air. When a rapid temperature change occurs, micro-water droplets in the air will collect on untreated lenses, causing the lenses to fog and impede vision.

FOGLESS[®] 3SIXTY[™] TECHNOLOGY PROVIDES THE ULTIMATE FOG PREVENTION WHEN:

- Transitioning between warm and cool environments
- Working in a humid or wet environment
- Engaging in an activity that causes perspiration
- Eye protection is used with respiratory equipment
