# OR THE JOB

# FALCON™ CHEMFR

PROTECT AGAINST  
LIQUID SPLASH AND  
INCIDENTAL CONTACT  
WITH CONTAMINANTS

PVC/Nylon/PVC construction provides the necessary durability, while additional features, such as the reinforced wear points and oversized storm flaps, were added to help ensure all-around protection.

INDUSTRIES

AGRICULTURE

JANITORIAL

MAINTENANCE

OIL & GAS

PETROCHEMICAL

SANITATION

SEWER &  
WATER WORKS

## FEATURES & BENEFITS

- Special PVC layered material provides protection against various liquid splashes and incidental contact
- High strength nylon for increased durability
- Seams are welded to enhance protection against chemical permeation
- Reinforced knees, elbows, and crotch provide added durability
- Jacket and Coveralls feature an oversized storm flap front for additional protection
- Treated to provide limited flammability and is self-extinguishing (ASTM D6413 test method)

# LIQUID SPLASH PROTECTION

TRANSPORTATION

## FEATURES & BENEFITS

- 0.65mm ribbed PVC/Polyester is 100% waterproof, and resists rips and tears, providing durable protection
- Combination of ribbed PVC with non-woven lining stays soft and comfortable in cold weather
- Non-woven lining wicks away perspiration
- Underarm vents on jacket and coat for added comfort
- Reinforced wear points provide added durability

## SPLASH PROTECTION DESIGNED FOR PRESSURE WASHING APPLICATIONS

The reinforced closures and overlaps, as well as a 12" x 12" shroud that attaches to a faceshield, provide the enhanced protection needed to help prevent water from entering the suit.

INDUSTRIES

AGRICULTURE

CONSTRUCTION

JANITORIAL

OIL & GAS

PETROCHEMICAL

### FEATURES & BENEFITS

- 0.33mm PVC/Polyester is 100% waterproof
- 360° high bib overalls for extended protection
- 12" x 12" shroud provides maximum protection, connecting to the face shield and chest
- Enhanced storm flap front with additional hook and loop closures at neck, wrists and leg cuff
- Reinforced wear points provide added durability
- Treated to provide limited flammability and is self-extinguishing (ASTM D6413 test method)

Patented fresnel lens and high-luminosity LED's allow beam to be visible up to 3/4 mile at night

Shatterproof polycarbonate lens

Beam will not impede vision unless positioned at eye level

Reflective strip and fluorescent body for maximum visibility

High-strength clips for easy attachment to belt or clothing

Impact resistant ABS body

Compact and lightweight, weighs under 11 oz. with 4 "AA" batteries

# SAFETY IN A FLASH

The job site already has obstacles that can limit vision and visibility. Inclement weather compounds this potential issue. E-flare™ Warning Beacons are intensely bright to provide instant visibility, and are safer and more environmentally friendly than standard pyrotechnic flares.
