## USM-3315

### METAL MESH T-SHIRT FOR ARM AND CHEST PROTECTION IN HAZARDOUS APPLICATIONS

- 4-Ring joined to make a stronger seam and to help prevent knife stick at the seam area
- Split neck, pull-over style t-shirt has two full sleeves with web strap cuff
- 12 inch length extends over breast bone and shoulder blades
- Typically paired with apron for full front coverage
- US Mesh gloves and garments are compliant with FDA 21 CFR and safe for direct food contact
- Garments are made in compliance with the European EN1082 Standard

### APPLICATIONS

- Food processing
- Food service
- Fishing industry

### CARE INSTRUCTIONS

Keep in dry area. To clean, brush off any product residue and then wash with warm soapy water. Standard dish washing detergent is recommended. Hang to dry.

**WARNINGS:** Metal mesh gloves and garments are cut-resistant, not cut proof. These products have the possibility of being caught in moving machinery and should not be used when operating power-driven blades, saws and tools to avoid this hazard.

**OSHA REGULATION:** Workers who use knives must be provided with metal mesh gloves and aprons, and wrist and forearm guards to protect them from knife cuts.\* <http://www.osha.gov/Publications/OSHA3108/osha3108.html>
