

# SPECIFICATION SHEET

## CR-BALL-PEN

### CR ESD BALL PEN

- Suitable for cleanroom Class 100
- Volume resistance ESD  $10^5 - 10^9$
- Friction voltage is less than 100V
- Comes in black, blue and red
- ESD safe
- Nib specification 0.77MM
- Retractable

### APPLICATIONS

- Cleanroom
- Medical and Biologoical Labs
- Semiconductors
- Electronics Industries
- Electrostatic Painting
- Avionics

### CARE INSTRUCTIONS

Store in a normal temperature and humidity environment, away from direct sunlight

### TECHNICAL DATA

|            |  |
|------------|--|
| MATERIAL   | ESD ABS                                    |
| COLOR      | Black, Blue, and Red                       |
| SIZES      | OS   |
| PACKAGING  | 50/box, 8 box/case                         |
| COO        | China                                      |
| INK        | Phthalocyanine dyes                        |
| DISPERSANT | Mixture of Phthalic Acid and Glycol Esters |

### BARCODES

| ITEM           | EACH         | BOX            | CASE           |
