

# J100SP-4CM

High Tech Protection That's Easy to Wear

## APPLICATIONS

Glass Manufacturing  
 Metal Fabrication  
 Automotive  
 Construction  
 Food Processing  
 Industrial Manufacturing  
 Security/Law Enforcement

Get high level cut protection plus the easy on/off comfort of a full zip jacket with ATA® Prevent Wear™ jackets from Worldwide. Made from extremely strong, high performance fibers, the J100SP-4CM jacket delivers significant cut and abrasion resistance in high-risk zones. Vital arteries in the neck get ANSI A7 protection for high cut hazards from the 4" Comfort Collar. Across the abdomen, reinforced knit is rated ANSI A6. The forearms score ANSI A5, while the upper chest, biceps and back panel deliver ANSI A4 cut resistance. The jacket is intentionally long to offer protection to the groin. And it's comfortable. The fabric stretches and breathes. The Comfort Collar has a cooling effect against the skin. Plus it's easy to wash in cold water; tumble dry in low heat. Made in the USA.

## FEATURES

- Full-length zipper closure for easy on/off
- Reinforced belly, neck and forearms
- 4" Comfort Collar has cooling effect on the skin
- Snug cuffs keep sleeves from riding up
- Dark color hides dirt and soiling
